Side-by-Side Comparison of Proposed Regulations in MPA Proposals Generated External to the Regional Stakeholder Group
File Revised July 15, 2009

Subregion 4 - Newport Beach to Agua Hedionda (continued)	External Proposal A		External Proposal B		Proposal 0	
	Laguna SMR (very high)	All take is prohibited. Collection for water quality requirements of the Aliso Creek outfall should be allowed to continue with valid legal permits.	Laguna Coast SMCA (high)	Commercial take is prohibited except Coastal pelagic finfish (pelagic seine) and Pacific bonito (pelagic seine). Recreational take is prohibited except Pelagic finfish (hook and line and spear), Pacific bonito (hook and line and spear), White seabass (hook and line and spear), Coastal pelagic finfish (dip net) and Jumbo squid (hook and line).	Laguna Beach SMCA (moderate low)	Prohibits all recreational take except lobster; rockfish (family Scorpaenidae), greenling, lingcod, cabezon, yellowtail, mackerel, bluefin tuna, kelp bass, spotted sand bass, barred sand bass, sargo, croaker, queenfish, corbina, white seabass, opaleye, halfmoon, surfperch (family Embiotocidae), blacksmith, barracuda California sheephead, bonito, California halibut, sole, turbot and sanddab. Finfish shall be taken only by hook and line or by spear. Prohibits all commercial take except lobster.
	Laguna Coast SMCA (moderate low)	The recreational take of all marine aquatic plants and invertebrates except lobster and crab by hoop net and lobster by diving is prohibited. The commercial take of all marine aquatic plants and invertebrates except lobster, crab, and kelleys' whelk by trap and sea urchin by diving is prohibited. Take of all other species is allowed. Local agencies may limit terrestrial access to prevent trampling of intertidal species.	Laguna SMR (very high)	All take is prohibited	South Laguna Beach SMCA (moderate low)	Prohibits all recreational take except lobster; rockfish (family Scorpaenidae), greenling, lingcod, cabezon, yellowtail, mackerel, bluefin tuna, kelp bass, spotted sand bass, barred sand bass, sargo, croaker, queenfish, corbina, white seabass, opaleye, halfmoon, surfperch (family Embiotocidae), blacksmith, barracuda California sheephead, bonito, California halibut, sole, turbot and sanddab. Finfish may only be taken by hook and line or by spear. Prohibits all commercial take except lobster.
					Niguel SMCA (moderate low)	Prohibits all recreational take except lobster; rockfish (family Scorpaenidae), greenling, lingcod, cabezon, yellowtail, mackerel, bluefin tuna, kelp bass, spotted sand bass, barred sand bass, sargo, croaker, queenfish, corbina, white seabass, opaleye, halfmoon, surfperch (family Embiotocidae), blacksmith, barracuda California sheephead, bonito, California halibut, sole, turbot and sanddab. Finfish may only be taken by hook and line or by spear. Prohibits all commercial take except lobster.
	Dana Point SMCA (moderate low)	The recreational take of all marine aquatic plants and invertebrates except lobster and crab by hoop net and lobster by diving is prohibited. The commercial take of all marine aquatic plants and invertebrates except lobster, crab, and kelleys' whelk by trap and sea urchin by diving is prohibited. Take of all other species is allowed. Local agencies may limit terrestrial access to prevent trampling of intertidal species. Lifting/overturning rocks and handling of species in rocky intertidal area may be prohibited by local agencies. Permits for other activities may be issued by the Marine Institute in accordance with current regulations.			Dana Point SMCA (moderate low)	Prohibits all recreational take between mean high-tide and the low lower water mark. Below the low-lower water mark the following species may be taken recreationally: lobster, rockfish, greenling, lingcod, cabezon, yellowtail, mackerel, bluefin tuna, kelp bass, spotted sand bass, barred sand bass, sargo, croaker, queenfish, Corbina, white seabass, opaleye, halfmoon, surfperch, blacksmith barracuda, sheephead, bonito, California halibut, sole, turbot, and sanddab. Finfish may only be taken by hook and line or by spear. Prohibits all commercial take except lobster. Restrictions exist regarding: take and impact in the intertidal zone, scientific collection, and allowed management activities.

	MPA Name (Level of	Proposed Regulations	MPA Name (Level of	Proposed Regulations	MPA Name (Level of	Proposed Regulations	MPA Name (Level of	Proposed Regulations
Subregion 7 - Southern Channel Islands	Arrow Point SMCA (moderate low)	Permits all recreational and commercial activities except take of invertebrates. Allows recreational take of sheephead (hook and line). Allows commercial take of sheephead (hook and line, spearfishing).	Arrow Point SMCA (moderate low)	Permits all recreational and commercial activities except take of invertebrates. Allows recreational take of sheephead (hook and line). Allows commercial take of sheephead (hook and line, spearfishing).	Arrow Point-Lion's Head SMCA (moderate low)	Prohibits all recreational take except of kelp bass, barred sand bass, sheephead, spotted sand bass, pelagic finfish, pacific bonito, white seabass, and halibut by hook and line, and shorefishing using hook and line. Prohibits all commercial take except of swordfish by harpoon.	Emerald Bay SMCA (moderate low)	All commercial take is prohibited. All recreational take is prohibited except for finfish (hook and line and spear), Grunion (hand harvest), and Shore fishing (hook and line).
	Blue Cavern SMCA (high)	All commercial take is prohibited except swordfish (harpoon). All recreational take is prohibited except pelagic finfish (spearfishing, hook and line), Pacific bonito (hook and line), white seabass (spearfishing). Allow trolling for pelagics/surface fish (intended high level of protection). In waters depth greater than 50m: pelagic finfish, bonito, white seabass with hook and line "surface gear".	Blue Cavern SMCA (high)	All commercial take is prohibited except swordfish (harpoon). All recreational take is prohibited except pelagic finfish (spearfishing, hook and line), Pacific bonito (hook and line), white seabass (spearfishing). Allow trolling for pelagics/surface fish (intended high level of protection). In waters depth greater than 50m: pelagic finfish, bonito, white seabass with hook and line "surface gear".	Santa Catalina Marine Science Center SMR (very high)	All take is prohibited. No Anchorage in SMR to protect scientific instruments and benthic substrate.	Catalina Isthmus SMCA (high)	All commercial take is prohibited except Pelagic finfish (hook and line) and Swordfish (Harpoon). All recreational take is prohibited except Pelagic finfish (spear and hook and line).
					Catalina Harbor SMCA (low)	Allows all recreational and commercial take, EXCEPT prohibits commercial purse seine for squid.	Cat Harbor SMCA (low)	The commercial take of squid is prohibited. Take of all other species is allowed.
					Long Point SMCA (high)	Prohibits all recreational take except spearfishing for Pacific bonito and dip net for market squid and coastal pelagic finfish. Prohibits all commercial take except of Pacific bonito (by pelagic seine or spearfishing) and pelagic seine for market squid and coastal pelagic finfish.	Long Point SMR (very high)	All take is prohibited
					Long Point SMR (very high)	All take is prohibited		
	Farnsworth Bank SMR (very high)	All take is prohibited. Request for moorings to be installed to protect bottom structure, because would like the area to be a no anchor zone.	Farnsworth Bank SMR (very high)	All take is prohibited. Request for moorings to be installed to protect bottom structure, because would like the area to be a no anchor zone.	Farnsworth Bank SMCA (high)	Prohibits all recreational take except spearfishing for Pacific bonito and dip net for coastal pelagic finfish. Prohibits all commercial take except of Pacific bonito (by pelagic seine or spearfishing) and pelagic seine for coastal pelagic finfish.	Farnsworth SMCA (high)	All commercial take is prohibited except Coastal pelagic finfish (Pelagic seine) and Market squid (Pelagic seine). All recreational take is prohibited except Market squid (dip net).

Marine Map, Cartographic Division UCSB

California Marine Life Protection Act (MLPA) Initiative

This map represents a marine protected area (MPA) proposals that have been submitted externally from the MLPA South Coast Regional Stakeholder Group MPA planning process. These external proposals are under review; They are NOT a recommendation to the California Fish and Game Commission.

California MLPA Initiative South Coast Project
Side-by-Side Comparison of Proposed Regulations in MPA Proposals Generated External to the Regional Stakeholder Group
File Revised July 15, 2009

	External Proposal A		External Proposal B		Proposal 0	
	MPA Name (Level of Protection)	Proposed Regulations	MPA Name (Level of Protection)	Proposed Regulations	MPA Name (Level of Protection)	Proposed Regulations
Subregion 7 - Southern Channel Islands			Charles F Holder Catalina SMCA (low)	All existing uses continue to be allowed as in current regulations. Add an upper limit on retention for sheephead and kelp bass, no retention for these species over 17" in overall length.		
			Arrow Pt to Lionhead SMCA (low)	Allows all commercial take, though other species and gear restrictions apply. Prohibits all recreational take except marine aquatic plants and fishes.		
	Bird Rock SMCA (high)	Commercial take is prohibited except Pelagic finfish (hook and line) and Swordfish (Harpoon). Recreational take is prohibited except, Pelagic finfish (spearfishing and hook and line)	Bird Rock SMCA (high)	All recreational take is prohibited except Pelagic finfish (spear, hook and line), Pacific bonito (spear, hook and line), and White Seabass (spear, hook and line). All commercial take is prohibited except Pelagic finfish (hook and line), White seabass (hook and line), and Swordfish (Harpoon).		
	Blue Cavern SMR (very high)	All take is prohibited	Catalina Marine Science Center SMR (very high)	All take is prohibited	Catalina Marine Science Center SMR (very high)	No take. Restrictions exist regarding: anchoring or mooring vessels, and scientific collection.
	Cat Harbor SMCA (low)	The commercial take of squid is prohibited. Take of all other species is allowed.				
			Farnsworth ptA SMCA (high)	Commercial take is prohibited except Pacific bonito (pelagic seine), Coastal pelagic finfish (pelagic seine), Market squid (pelagic seine), and Swordfish (harpoon). Recreational take is prohibited except Pelagic finfish (hook and line, and spear), Pacific bonito (hook and line, and spear), White seabass (hook and line, and spear), Jumbo squid (Hook and line), and Market squid (dip net). Allow permanent mooring placed so as to not damage purple corals. No anchoring.		
	Farnsworth Bank_SMCA (low)	Recreational and commercial take of purple hydrocoral (Stylaster Californicus) is prohibited. Take of all other species is allowed.	Farnsworth ptB SMCA (moderate low)	Commercial take is prohibited except Pacific bonito (pelagic seine), Coastal pelagic finfish (pelagic seine), Market squid (pelagic seine), and Swordfish (harpoon). Recreational take is prohibited except Pelagic finfish (hook and line, and spear), Pacific bonito (hook and line, and spear), White seabass (hook and line, and spear), Jumbo squid (Hook and line), and Market squid (dip net). Allow permanent mooring placed so as to not damage purple corals.	Farnsworth Bank SMCA (low)	Prohibits recreational and commercial take of purple coral (Stylaster californicus).
	Casino Point_SMR (very high)	All take is prohibited
